

Exploring the World of Leitz Cine Lenses

Date: August 22, 2024

Time: 14:00-20:00

Location: Ljud & Bildmedia AB , Stockholm HQ
Voltavägen 9, 168 69 Bromma, Sweden

Please join us for a special event. Cine lens manufacturer Leitz Cine, in partnership with FSF (the Swedish Society of Cinematographers), Ljud & Bildmedia AB & Camera Nordic, will present a unique opportunity to explore the latest Leitz lenses. Learn about 100 years of Leica Camera history and get an overview of the Leitz family of lenses and discuss the different looks and characteristics.

Cinematographers, ACs, and Operators shouldn't miss this opportunity to test and compare the full range of Leitz cine lenses. Get hands-on with multiple camera systems and discover how Leitz lenses offer different looks

for different projects, providing you more creative options to tell your stories.

Cinematographer Frida Wendel, FSF and a special guest DoP will talk about their career and demonstrate how to evaluate different characteristics of lenses using Leitz cine lenses and popular cameras from Sony and ARRI. Special thank you to PunkLight and MediaTeknik.

Come for the afternoon of presentations followed by a social evening. Enjoy some drinks and fun testing the newest lenses, meet the Leitz Cine team and network!
